

Cooperative Education Program Opportunities by Star Denim

About Cooperative Education

It is a combination of classroom-based education with practical work experience. Many employers train students before hiring as a graduate trainee for a specific period of time before they could start their jobs. Proper implementation of the 'Co-op' helps in bridging this gap.

As a part of Co-op education program, nominated students from the university on the basis of merit will be doing internships in their (spring/ fall) semester breaks from first year till the time of their graduation.
