

CIRCULAR

It is hereby notified for information of all University employees / students that for Prophylaxis against diseases like Dengue / Malaria, the following precautionary measures are required to be taken specially during rainy season:

- 1 Eliminate stagnant water from home and work places to prevent breeding of mosquitoes.
- 2 Used cans and bottles must be thrown into dustbin which should also be covered with a lid.
- 3 Water containers, cistern and water storage tanks should also be covered tightly.
- 4 Irregular / uneven ground surfaces should be levelled in order to prevent accumulation of water.
- 5 Wear long sleeved clothes and long trouser.
- 6 Use insect repellent over the exposed parts of body.
- 7 Use mosquitoes screen or nets in the room.
